more broad based and comprehensive to include other forms of trafficking in persons.

Infant mortality rate

1667. SHRI SANJAY RAUT: Will the Minister of WOMEN AND CHILD DEVELOPMENT be pleased to state:

(a) whether the infant mortality rate in the country is still high;

(b) if so, the details in this regard during the last three years and the position of India amongst the countries of the world, in this respect;

(c) the reasons for continuing high mortality rate amongst the under five infants;

(d) the details of measures taken or proposed to be taken for reducing the infant mortality rate in the country;

(e) whether Government propose to secure any donation from the big business houses/organizations to combat this menace; and

(f) if so, the details thereof and if not, the reasons therefor?

THE MINISTER OF STATE OF THE MINISTRY OF WOMEN AND CHILD DEVELOPMENT (SHRIMATI RENUKA CHOWDHURY): (a) and (b) The Infant Mortality Rate (lMR) as per the Sample Registration System for 2005 is 58 per thousand live births. The State-wise details in this regard during the last three years are give in the Statement-I (*See* below).

The IMR in India and other countries of the world as per ''The State of the World's Children 2007'', published by UNICEF, is given in the Statement-II (*See* below).

(c) The major causes of mortality amongst infants in India are acute respiratory infections, sepsis, diarrhoea and measles. Anaemia and malnutrition levels among pregnant women, intrauterine growth retardation, low birth weight of the new borns, poor breastfeeding practices are some of the contributory factors.

(d) The Government is implementing a number of schemes in different sectors which directly or indirectly contribute to reducing infant mortality rate in the country. These are–

- Reproductive and Child Health Programme under the National Rural Health Mission launched in April, 2005 which includes
  - Maternal Health by promoting institutional deliveries, improved coverage and quality of ANC, skilled care to pregnant women, post-partum care at community level
  - Immunization
  - Integrated Management of Neonatal and Childhood Illnesses (IMNCI)
  - Emphasis on appropriate Infant and Young Child Feeding

- Micronutrient Supplementation with vitamin A, iron and folic acid, zinc.

- National Iodine Deficiency Disorders Control Programme (Ministry of Health and Family Welfare)
- Integrated Child Development Services (ICDS) Scheme (Ministry of Women and Child Development)
- Nutrition Programme for Adolescent Girls in 51 districts (Ministry of Women and Child Development)
- Nutrition Education and Training Programmes, Dissemination of National Guidelines on Infant and Young Child Feeding (Food and Nutrition Board, Ministry of Women and Child Development)
- Accelerated Rural Water Supply Programme/Swajaldhara and Total Sanitation Campaign/National Rural Employment Guarantee Programme (Ministry of Rural Development).
- Targeted Public Distribution System (Department of Food and Public Distribution).

(e) and (f) No donation has been taken from any business house/organization by the Ministry of Health and Family Welfare, which is implementing programmes under IMNCI and NRHM to combat this menace.
